Heavy buying of the 75 vote coupons has been going on the past two weeks, to be held for the last day, which will materially change the present order of contestants.

The old standby, the Australia, which can always be depended on, plague or no plague, territorial law or no territorial law, is the ship that will carry the fortunate teacher who secures the prize on her well deserved outing trip. Everyone knows the Australia, and though she does roll just a little bit, the food you get is so good it simply has to stay down. The genial captain and purser will undoubtedly do all in their power to make the trip a delightful time long to be remembered by the teacher who is declared the most popular of the islands. The return ticket will be good for four months and the visit at the Coast will be limited in time only by the desires of the teacher.

If you want to give one of your teacher friends one of the most pleasant summers they have ever enjoyed just cut out the votes which appear in the upper right hand corner of this page in each issue and deposit them in the ballot box at the Bulletin office. If you are not satisfied with this slow way of bringing the contest to the front, you may subscribe for the Bulletin and get your friends to subscribe. You will get all the news and the most correct news and get it all the time, and in addition you will be given votes to cast for your favorite teacher as follows, according to the term of your subscription:

1 MONTH	40 votes
3 MONTHS	150 "
6 MONTHS	350 "
1 YEAR	750 "

Subscriptions are 75 cents a month or \$8 a year in advance.

Kamehameha Alumni.
At a meeting of the Kamehameha Alumni Association in the club house, Fort street, last night the reports of the various committees were approved. The boys talked over a proposition to introduce into the club life, class work in English grammar, literature and history as well as mechanical drawing, bookkeeping and civil government. It was also suggested that the principles of the Constitution of the United States be expounded. In connection with the regular studies, there will be lectures on topics of the day by various prominent men of the city.

W. O. SMITH'S ARGUMENTS

He Gives His Reasons for Favoring a Special Session.

Proper Adjustment of Fire Claims—Extension of Fire Limits in Chinatown—Incorporation of Towns.

Hon. W. O. Smith having been known to have been in favor of a special session of the Legislature, the reports of the Governor's Council yesterday which he attended, saying "the general sense of the meeting was against it," naturally gave the impression that he had changed his views, or at least had not taken strong ground for the proposition.

On being seen this morning by a Bulletin reporter, Mr. Smith was eager to correct any such impression. He spoke to the following effect:

"Mr. Hatch and myself have been urging the desirability of a special session, and Governor Dole has been in favor of it.

"The first reason I would state for the proposition is the necessity of properly considering the claims for losses in the Chinatown fire. It has been said that this is a \$10,000,000 matter, but I think that a very great exaggeration. There are very few claims that could probably be maintained in a court of law, yet it is very desirable that some compromise should be made. Many poor natives have lost their all for the public good, and it would be a severe hardship if the Legislature should not afford them some relief.

"About six months have now elapsed since the fire. To wait for the regular session in February for the appointment of a commission to adjust the claims would mean the lapse of three years between the event of the losses and the report of a commission to the next regular session. In that long period much of the evidence would be liable to be lost or at least to grow hazy. Landmarks would be obliterated and values changed.

"It would be impossible, in the short space of the special session, thoroughly and equitably to adjust the claims. A commission will be necessary for this work, and one appointed at the special session could report to the regular session, when the money for settlement would be appropriated.

"Another reason for a special session is the great desirability of having the fire limits extended before Chinatown is rebuilt. We do not want the ground again covered with inflammable shacks. In the same connection, it is important that the earliest action be taken on house connections with sewers. The Board of Health regulations on this matter ought to be confirmed by act of the Legislature.

"The third reason is with regard to municipal incorporation. This is too large a subject to be handled with the multiplicity of other matters which must engage the first regular session of the Territorial Legislature. It is a matter that can only be satisfactorily formulated by a commission. By appointing a commission at the special session, there would be time for its submission of a report at the regular session. As in the case of the fire claims, two years would thus be saved. The alternative of rushing through a municipal system, in the same session as initiatory action was taken, should not be considered.

Mr. Smith declared that, instead of changing his mind, he was more strongly than ever in favor of a special session.

Good Idea Gone Wrong.

Eleven millions of men are said to belong to the great Chinese Society of Boxers, against which the great European and American powers may soon have to direct armed force. This estimate was made by a Chinaman a year ago in conversation with an American who was then in China. The Society of Boxers, which now stands for lawlessness, robbery and murder, was once respectable. It is a good influence gone wrong. Originally it was organized as a protest and a means of defense against the bandits with which the province of Shantung was infested. It was, in fact, a Law and Order League.

Judicial Land Sale.

George Lucas, Commissioner of the Circuit Court in the case of Hawaii Land Co. vs. Nakaumano et al., sold by auction at noon 64-100 acres of land in rear of the tramway stables, Palama. The Hawaii Land Co., already owning five-sixths of the property, was the buyer for \$2000. The land is completely surrounded by lands of the purchasing company.

Will Disallowed.

Judge Stanley refused the petition for probate of the will of Kaalaka on the ground that it was not executed in accordance with the statute. Magoon & Long, who appeared for the proponent, noted an appeal. C. F. Peterson represented the contestant, a nephew of deceased.

Extra Session An Expensive Luxury

A special election and a special session of the Legislature would cost at the lowest calculation something like \$30,000. The appropriation for elections is \$15,000. It would be half used up by a special election. Pay of fifteen Senators and thirty Representatives, at the allowance of \$200 for a special session of 30 days, would amount to \$9,000. Officers of the Legislature would draw from \$500 to \$800. Printing, stationery and incidentals would eat up at least \$2500 more.

J. M. Vivas, who represents a large number of small taxpayers of Hawaii, was seen this morning in regard to the much-talked-of special election of the Legislature. Mr. Vivas had the following to say:

KAUAI TROUBLE ENDED.

Laborers Return to Work on All the Plantations.

Advice received from Kauai this morning by the immigration companies state that all the Japanese strikers on the Kauai plantations have gone back to work without further trouble.

Representatives of the immigration companies were cordially received and their counsel listened to with marked interest. The laborers as a whole were not disposed to make trouble and immediately returned to work when the misrepresentations by the agitators were made clear.

Council Saito arrived a short time after the laborers had refused to listen further to the disturbing element and was highly gratified by the action of the Japanese. He will continue his trip among the plantations, giving the laborers full information.

Jurisdiction Sustained.

Judge Stanley has overruled the plea to the jurisdiction in Wilder's Steamship Co.'s libel against the ship John C. Potter. He holds that the United States District Court would be the proper tribunal had the action not been brought before June 14, but as it was pending in the Circuit Court at that date it ought to be carried to its determination in such court.

GUARDING AGAINST FILTH

Oriental of Liliha Street Called to Account.

Space Under Houses Not Meant to Receive Garbage—Japanese Fined in Police Court This Morning.

A Japanese was fined \$10 and costs in the Police Court this forenoon on the charge of violating the sanitary regulations by discharging sewage from his house into an open ditch.

The house in question is one of the new ones on Liliha street that form the nucleus of what will most likely be the new Chinatown. It will be remembered that The Bulletin suggested a few days ago that just this sort of thing would happen. Where there are ditches that can be easily reached by Japanese and Chinese, there one will find a tendency to empty into the same all kinds of filth.

It will take a number of lynx-eyed inspectors working during the day and night to keep the Japanese and Chinese on Liliha street from making out of the new Chinatown another pest hole.

It is understood on good authority that the owners of the property the Interior Department on the O. R. & L. intend to grade the ditch running through the new Chinatown so that this will form a drain. As it is at present, anything thrown in remains there and, in the case of heavy rains, all manner of trouble is likely to occur.

RESISTED ARREST.

Officer Frank Ferreira Assaulted by Punchbowl Portuguese.

Frank Ferreira was sent up to the Lishman quarry late yesterday in answer to complaints made by some Japanese living there to the effect that hoodlums had been doing all kinds of mischief. One Japanese was stoned and badly hurt about the legs.

Ferreira collected about fifty Portuguese boys of the vicinity into the quarry and then called upon the Japanese to identify the ones who had done the damage. Five hoodlums were singled out and Ferreira was in the act of taking them to the police station when he noticed several men moving toward him.

The Portuguese shouted to Ferreira to let the boys go. He had no business there anyway. Ferreira cautioned the men to cease their interference or they would get into trouble. He made the second attempt to take the boys when he was set upon by a number of Portuguese. Seeing the odds very much against him, he jumped on his horse and rode away to the police station where he reported to Deputy High Sheriff Chillingworth.

Two of the men who assaulted Ferreira were arrested today. More arrests will very likely be made later on. Seven Portuguese boys were arrested at the quarry a few days since, complaints having been made that they had been indulging in all manner of lawless acts. The mothers accompanied the young men to the police station and set up walls for their release. High Sheriff Brown finally let them go with a warning. Now they are at their tricks again. Some of the things they do are positively disgusting.

Kauai Shipping Notes.

The Mikahala from Kauai this morning reports as follows: Stmr. Kauai at Waiman loading sugar. Already had 4000 bags on board. Will leave for Honolulu Saturday afternoon, June 23. Had weather at Waiman. W. G. Hall at Makaweli loading sugar. Had 4000 bags on board. Will leave for Honolulu Saturday afternoon, June 23. The Eclipse got to Waiman before the Hall, claimed the right of way, took on 3800 bags of sugar and left for Honolulu Friday afternoon. The Hall would have been back in Honolulu Saturday morning had it not been for the interference of the Eclipse.

Systematizing Books.

Mr. Thomas, expert bookkeeper and accountant, is just now engaged in the work of systematizing all the books of the plantations for which W. G. Irwin & Co. are agents, this with an idea to simplify matters and making the reports the same when they are turned in.

Mr. Thomas is now at Kilauea. He will be in Honolulu and will then proceed to the Honolulu plantation.

Dejourner Aboard Protet.

Commodore Germet and officers of the Protet entertained a number of distinguished guests aboard their ship today. Among those present were the Bishop of Panopolis, French Consul Moist, Portuguese Charge d'Affaires Canavaro, Captain Merry, commander of the Naval Station and Major Ennis, commander of the United States troops here.

New Flowering Tree.

Professor Koebele has the promise of getting seeds of an East Indian flowering tree whose scientific name is Amherstia nobilis. It grows high and bears clusters of as many as 20 flowers. The blossoms are from 12 to 18 inches in length. The Amherstia nobilis will make a grand addition to the blooming resources of our parks and private grounds.

Foremast Gone.

The Malolo that arrived this morning reports passing off Kaena Point, an island schooner with foremast gone and only her mainmast up. She was getting along all right and made no signs for assistance so the Malolo did not go to her. The disabled vessel looked very much like the Blanche and Ella. She was bound for Honolulu.

FOURTH OF JULY.

A great number of Hawaiian and American flags can be gotten in Iwakami's store, Hotel street.

Yachtsmen Prepare for Race on the Fourth

Eight or ten yachtsmen were present at the meeting at the Pacific Cycle & Manufacturing Co. to consider the proposition of yacht races on July 4th. It was almost definitely settled that there shall be a race between the La Paloma, Eva and other boats of their class over a course to be decided on later. It is hoped that the Helene will enter for this race. She has just been on the marine railway and is in fitting shape to make very fast time. Indeed, it is thought by many that she will out-sail both the La Paloma and Eva. A three-cornered race would certainly be an interesting event.

While the big yachts are off, it is probable that the second class boats will also be out on a race. All that is being waited for now is the announcement of cups or money prizes or both by the Fourth of July committee on celebration.

NED EVERETT DEAD.

Passed Away at Queen's Hospital Late Yesterday Afternoon.

Ned Everett, aged 39, died at the Queen's hospital at 4:10 p. m. yesterday after an illness of a little over fortnight. He was brought up from the Honolulu plantation where he had been working, a fortnight ago. Typhoid fever had taken place in St. Andrew's Cathedral Sunday afternoon at 1 o'clock. Intestine will take place in Nuuuanu cemetery.

Deceased leaves a step-mother in San Francisco and three brothers—Louis, Charles and Henry, in the islands. He was the son of the late A. P. Everett of San Francisco and formerly of Honolulu. He was also a nephew of the late Daniel R. Vida of this place.

Oriental Condition As Viewed From Japan

Telegraphing under date, May 10th, from Yokohama, the special correspondent of the China Mail wired:—

I have returned from an extensive tour of investigation in North China and Corea. At Tientsin I learned that the Imperial Government are in sympathy with the Boxers Society, and that General Yuan Sikik-ai, Governor of Shantung, had not received orders to use vigorous measures to suppress the Society.

Port Arthur is swarming with soldiers, and the naval and military authorities are very active. Two American firms are selling the Russia Government large quantities of stores for the provisioning of the stronghold.

At the Korean towns, Chemulpo, Seoul, Mokpo and Fusan, the Japanese control the foreign trade. The Japanese have large and exclusive settlements at each of these ports. Japanese officers are frequently seen in Corea. Undoubtedly Japan would fight to defend her trade in Corea, but the best-informed people are of opinion that, although Japan and Russia may squabble over points of strategic advantage, these differences will not for a long time lead to war, and Corea will continue to be the buffer state between the two powers for years.

It may be, however, that Japan will be forced into the war by a possible approaching financial crisis. It is reported that there will be an enormous deficit in the budget this year. The amount of the deficit is rumored at forty million yen. Where the money is to come from to meet the current expenses of Japan's large army and navy is the question of the day seriously agitating the minds of statesmen. The people are already highly taxed, and the taxes collected from foreign merchants have fallen far below the sum in the estimates.

The Minister of Finance says the present hard times in Japan are due to a reaction from over speculation after the war with China. It is asserted by the foreign banks that Japan is being drained of gold, but Japanese officials state that only eight millions have gone out since the China War.

On the whole, I believe that the able man at the head of the Japanese Government can restrain the country from entering into a damaging war without more serious provocation than Russia is likely to give within the next two years.
